

A New Service from the SPI Team!

The world of public sector sales is a jungle where only the fittest companies succeed. Fitness is built on competitiveness, knowledge, and action. For more than 20 years, Strategic Partnerships, Inc. (SPI) has been solely focused on winning business for our clients in the government marketplace – and our Research Services will put your company on the fast track to success.

The SPI team offers 'A COMPETITIVE EDGE' – a research service package that provides valuable insider information about upcoming contracting opportunities tailored to your industry. It's the best government contracting sales roadmap on the market today.

SPI Research can:

- Identify upcoming contracting opportunities in any state or any combination of states matched to your unique pursuit criteria.
- Find detailed information about opportunities before they have been publicly announced.
- Provide all the details on market trends, budget cycles, competitors, political environment – everything you need to get ahead of your competition.

The SPI Team of researchers and consultants deliver customized research and offer counsel and guidance about how to win the opportunities.

Only a limited number of these research service packages are available at this time. If this is of interest, contact us with your questions, ask for a sample report, or reserve your space.
